

# Edward Dryden

---

**President, Refrigeration**  
**Carrier**

Edward Dryden is President, Refrigeration, for Carrier, leading the company's global transport refrigeration and cold chain monitoring businesses. Edward is responsible for driving profitable growth through innovative and sustainable solutions and services that preserve, protect and extend the world's supply of fresh food, lifesaving medicine and other perishable goods.

Edward has more than 20 years of business experience. Prior to joining Carrier, he held a number of business, operations and engineering leadership roles at Collins Aerospace and its heritage businesses. Most recently, he served as President of the Interiors business. Prior to that, he led the international Actuation Systems business.

Edward earned a bachelor's degree in electronic engineering from the University of Wales – Cardiff and an MBA from the University of Warwick – Warwick Business School.
